They may not include all the records I got or they may include all I've placed in a ~~xxxx~~ separate files. The records from which they came do not include all the FBI had. Hasty note "investigation" by FBI
Withdrawn after Dallas Times-Herald,
a/a T-H publication
FBI instructed to not typing or using
court reporter

Shanklin "investigation" illustrates:
Hime arrived room 12:13 p.m., left 12:42, leaving
29 minutes to accomplish, having to do with
drafting and dictating his affidavit. It then
took Hl only 25 minutes from the time
he left to return with the typed affidavit

not interviewed. Wrote short, 1½ pp.
handwritten affidavit. Denied
previous statements as "out of context"
re me "Claims I know nothing & didn't
know nothing (don't recall a note only

interviewed his agt. by they did not type it
it as they did with Shanklin in Dallas.

2) Clark adds he can't believe that "such a thing happened", what being vague

Jeanne Le Fevre was her receptionist Arnone, a week or 10 days before assassination left a note in Hosty. Plastic stabbing out envelope & she read it. Something as of Oswald to blow up FBI & DPD is Hosty did not leave Marina's wife alone. Said sign LHO. Recognized from published pix Showed note to ASAC Clark, who said LHO must sign note to Hosty. He also said LHO a nut. Sunday after assassination Clark told her to forget about note.

When she spoke to Hosty after & asked him what happened to the letter he said "in hot water. I don't know what you are talking about."

A few days later Hosty gave her and told her "Forget about that letter."

Kenneth C. Howe - No logging of him, either typed affidavit. Begins with diversion & says person does not remember that Ruth Paine said LHO had been FBI.

3) (Nixon also testify with this) Beg deal
of not having objects to Petro, which is unclear
followed by vague recollection of hearing hand
that Mr. ~~Ford~~ Fenner had said something
about a note. Claims that while he never
read any Prop. he was often in hand
when it be typed & Shanklin or Clark
Claims not to recall "~~the~~ reaction" with
Ignico but says that ~~Flynn~~ Flynn told
him of note, says does not doubt her
"veracity" but that must be confused.

4) Ira Hamilton - He feels part of Frazier's story. An FBI inspector snatched from his hotel bed - that when he ~~met~~ mentioned the letter to Shanklin in 1974 as they were driving to a retirement party for Shanklin almost "jumped out of the car" Hamilton drove to mention to Shanklin he'd been told C to confer with FBI Director Kelley. Hamilton assumed that they had complaints about what had happened with him. Kelley was looking into it upon Shanklin's inquiries of Shanklin, who asked Hamilton what kind of letter it was. Hamilton said "dummy letter" in not doing any thing about it, not planning to do it & filing a report on it. Hamilton had heard, by story following the assassination, But he thought Frazier had been a very capable agent & couldn't see any reason why both had been transferred out of Dallas after working the Security section of the assassination investigation. Shanklin appeared surprised. In 3/75 & 4/75, just before his retirement, Hamilton had office talks about reports of a new investigation

5) [illegible] incident to A
Vine Drive Later that day he saw Brian,
Fenner & several others in conversation.
Fenner called him to the group & told him she
had seen the note. He claims to remember no
details & to have had no personal knowledge
whatever in him by Conley in Dealey

7/21/75 - Time, R.C. This one called "Gap -
plement". How he remembers that taken
by James Darnell's note by personally
took it to Shanklin, who "approved
from Continuation" from documents
with Shanklin re Hosty action.

7/22/75. Helen O. Mary denies seeing the note but
recalls Fenner checked all of it & Lee's visit
the, recollections after a assignment before Lee shot.
Recalls Fenner told her of being told to "forget"

FBI A Penn 7/22/75 Lee Bowers has
statements, includes what is attributed to Fenner
& is not in his affidavit. Claims not positive
kind of note & visit Lee, but "did not think
any thing of it since I had heard that Oswald

was an informant & source of both..."
